NEW MEXICO LIBRARY STATISTICS

fiscal year 1980-81

The New Mexico State Library is required by statute to collect data from all libraries in the state. The statistics in this document were taken from the 1980-81 annual reports of the public, community, academic, special and institutional libraries.

Public libraries have been grouped by town population in order to provide a comparative picture of their development and services. Statistical information has also been included for public library branches and bookmobiles, the State Library regional bookmobiles, books-by-mail service and the Library for the Blind and Physically Handicapped. 1980 census data has been used in this report, and has served as the base for all per capita figures.

The help of librarians in the state who have completed reports and made useful suggestions and comments is gratefully acknowledged.

NEW MEXICO STATE LIBRARY
325 Don Gaspar
Santa Fe, New Mexico
January 1982

Report prepared by the Library Development Bureau staff, Library Division, Office of Cultural Affairs of the state of New Mexico.
